Grand total 2006 recorded visitor occasions : 99,098

In addition to open green spaces, Erie MetroParks provides and operates recreational facilities to fulfill, primarily, the educational and recreational needs of Erie County's rapidly growing urban areas. For this report, 'visitor occasions' is defined as the number of contacts, visitors or participants at a park or off-site park activity per day. All occasions, except Special Events or Co-Sponsored Group Events, are documented through facility reservations and program registrations. For details please contact Erie MetroParks at 419-625-7783 or www.eriemetroparks.org.
